Projects

PRAKOSO TV

Prakoso TV is a simple mobile web that I create by myself for e-commerce that specified in TV shopping. With a focus on simplicity and user convenience, this project aims to revolutionize the TV shopping experience by providing a seamless and intuitive interface for users to explore and purchase a wide range of products.

Link: [PrakosoTV](#)

Responsibility:

- Create design system, wireframe, and the mock-ups with all the UI components using Figma by myself.

CORALL

CORALL or Code Rally is an app specialized freelance platform tailored for IT professionals. Unlike general freelance platforms, CORALL's niche focus allows freelancers to find and engage in projects specifically within the IT domain. The platform incorporates gamification elements to recognize and reward freelancer achievements, while dedicated IT forums foster collaboration and knowledge sharing.
